Arnhem's Trompetter Korps (ATK)
gala show 2011.

‘Made in Holland’

(The Corps will present itself with a musical march. We request you to make the following announcement as soon as the band has taken it's starting position.)

Ladies and gentlemen, girls and boys,
This is the Arnhem Trumpeting Corps from Holland

Friendship is an illusion, this is the title of the march that the Arnhem Trumpeting Corps just played. But, without friendship many beautiful songs wouldn't have been written and many beautiful lyrics wouldn't have been composed.

This brand new show consists of two parts. First the overture, a first acquaintance with big pop and rock hits from Dutch performers. The second part consists of a few parts you have already heard in the overture, but now you can hear them longer and with more passion,

The Arnhem Trumpeting Corps has chosen to make some rough pop and rock songs from the late fifties until the present .

You will hear among others: Radar Love from the Golden Earring, the well known French song Vivre, Venus from Shocking Blue (also known in a version of Bananarama), and the last part of the show is a Dutch song called ‘I can't do it on my own’, from the Dutch pop group the Embankment, this as a statement that all people need friendships.

Choreographer of the gala show is Dennis Smits, conductor is Marcus Kerpershoek and drum major is Berry Stinissen.

Ladies and gentlemen, everything that's been mentioned until now, has a common feature: it's all **‘Made in Holland’**
